

1. K-LOVE is a PG rated radio station. We never have to worry about what is being broadcasted knowing that every minute of radio is family safe. The music and information is uplifting and positive.
2. Our community houses two major gangs. Our homicide rate and high school drop-out rate is not one we are proud of. K-LOVE's influence is the most positive thing we have happening on the radio. Many local Christian business have K-LOVE playing throughout the day.

Please do not take K-LOVE away in its current format. Its presence will be missed and the result of its absence profound on our youth.
Thank you.
